

UMF Rehabilitation Services Specialization Application

Students are allowed to specialize in up to two specializations in the Rehabilitation Services Program. Please note that fieldwork (practicum and/or internship) must be in the area of the specialization (see Rehabilitation Services Specialization form for more information). All courses for the specializations require a grade of a C or higher. Application for specialization may be made at the time a student is enrolled in his/her internship and all other course work has been completed. The student should fill out this application and take it to his/her advisor for verification. Once verified, this form goes to the Rehabilitation Services Program Coordinator for approval and a copy will be forwarded to the Registrar's Office.
